RECIPE OF THE WEEK

Dutch Apple Cake

Broadcast: February 4, 1950

1/3 cups biscuit mix
2 teaspoon
2 teaspoon
4 cup sugar
1 well beaten egg
tablespoons
7 tablespoons
8 tablespoons water
2 cups pared, sliced
apples
butter or margarine
2 tablespoons raisins

Turn on oven; set at moderate (375° F.). Grease a deep 8-in. cake pan. Mix ½ cup sugar with cinnamon. Add 1 tablesp. milk and the butter. Let stand. Put biscuit mix into bowl. Mix in sugar. Stir in quickly a mixture of beaten egg, milk and water. Spread in greased pan to very edge. Cover with apples. Arrange raisins on apples. Spoon sugar mixture over top of fruit. Bake on bottom shelf of oven about 35 min., or until apples are tender and top is

Negro Caught With

Lost Pocketbook

The Elba Clipper

"COMPLETE NEWS COVERAGE OF COFFEE ELBA, ALABAMA, THURSDAY, FEBRUARY 9, 1950 VOLUME 53

Heads Revival

Drexel Cook lost his pocketbook recently. It contained four ten dollar bills, a drivers license, change, identification cards, etc The colored youth who found it used poor judgement when he made a purchase at Drexel's fathers Store, using one of the ten dollar bills for payment. He had another bill changed at Alto Jeter's store in the same neigh-

Fitzhugh Calhoun, serving on the police department while police chief J. W. Parker was visiting in Mobile, got on the case. He learned of the purchases concerning the ten dollar purchases and with the aid of other policemen found the Negro and locked him up on a drunk and disorderly charge. The lost bill fold was found in his possession. It contained \$17, but the other contents were missing.

Earth's Atmosphere Rocks With Wave-Like Disturbance NEW YORK. - The British naval physical laboratory Slough, England, has reported that the top of the earth's at mosphere rocks to and fro wit a wave-like motion. The motion is like that of water in the top of a bucket after it has been tilted. There are both waves and ripples. The discovery, it was said, shows that the wave motion can be predicted, and this forecasting promises a new step in radio. It might be used to beam radio long distances, far around the curvature of the earth, and far beyond the limits of radar.
